

# CKA/CKAD : Complete Certification Guide

Demo: Labels

# Labels

- **Labels** : Display Pod labels.

```
kubectl get pods --show-labels
```

- Get Pods with specific labels.

```
kubectl get pods -l key=value
```

- Add Label to a resource

```
kubectl label pods [pod-name] key=value
```

# Labels

- Overwrite Pods with specific labels.

```
kubectl label pods [pod-name] key=value --overwrite
```

- Remove Pod label

```
kubectl label pods [pod-name] key -
```

# Thank You...

Don't be the Same! Be Better!!!
